

Agenda

Launch of the Mareframe West of Scotland Case study

Thursday 22 May 2014

Chaired by
Paul Fernandes (University of Aberdeen)

Background. Mareframe is an EU research project which aims to break down the barriers associated with the application of the Ecosystem Approach to fisheries management. It aims to do this by applying new data to computer simulated models of various ecosystems around Europe to examine various management & fisheries scenarios that encompass the Ecosystem Approach.

Objectives:

- a) To introduce participants to the Mareframe EU project.
- b) To describe the West of Scotland case study
- c) To discuss management priorities in the West of Scotland case study

Logistics

Venue: **Conference room**, Bord Iascaigh Mhara (BIM) Head Office, Crofton Road, Dun Laoghaire, Co. Dublin. Web: www.bim.ie

Host: Alex Rodríguez. Tel: + 00353 1 214 4126; Email: rodriguez@bim.ie

Time: 09:30 – 12:30 h
