2011/HOME/002	Affaires intérieures	Framework for administrative measures for the freezing of funds, financial assets and economic gains of persons and entities suspected of terrorist activities inside the EU (Article 75 TFEU)	HOME	2ème trimestre 2013	Traité sur le fonctionnement de l'Union européenne: Art 75	procédure législative ordinaire (COD)			Programme de travail de la Commission / 2013 / CWP2013 Building upon the new legal base introduced by the Lisbon Treaty (Art. 75 TFEU), the initiative aims at closing a gap by allowing for the freezing of assets of persons/entities related to terrorist activities inside the EU, supplementing Regulation 2580/2001 which covers terrorist activities outside the EU. The existing deficiency has already had a negative impact for EU Member states as regards compliance with the global standards on counter terrorist financing and on the ability of up-dating existing terrorist lists. 2013/MARKT/011	Marché intérieur et services	Framework for the Regulation of the Production and Use of Indices serving as Benchmarks in Financial and other Contracts	MARKT	juin 2013	Traité sur le fonctionnement de l'Union européenne: 114	procédure législative ordinaire (COD)	O		Programme de travail de la Commission / 2013 / CWP2013 The integrity of benchmarks is critical to the pricing of many financial instruments, such as interest rate swaps, and commercial and non-commercial contracts, such as loans and mortgages, and risk management. Any doubts about the integrity and accuracy of indices may undermine market confidence, cause significant losses to investors and distort the real economy. EU work is required to assess if and what regulation may be required to improve the functioning and governance of benchmarks. Issues likely to be addressed include: how benchmarks are calculated; the governance and transparency of benchmarks; the use of benchmarks; public provision of benchmarks; and transition issues.
2013/MARKT/002	Marché intérieur et services	Proposal for a Directive [or Regulation] on the protection of trade secrets and confidential business information from misappropriation and misuse by third parties	MARKT	juillet 2013	Traité sur le fonctionnement de l'Union européenne: 114	procédure législative ordinaire (COD)	X		Programme de travail de la Commission / 2013 / CWP2013 This proposal aims at providing protection to companies which have developed trade secrets/confidential business information which are valuable to their business. 2013/MARKT/010	Marché intérieur et services	Amendments to the EU rules governing collective investment funds, notably in the areas of Money Market Funds, long-term investment funds and certain aspects of the UCITS Directive (Undertakings in Collective Investments in Transferable Securities 2009/65/EC) such as eligible assets and use of derivatives, efficient portfolio management (EPM) techniques, OTC derivatives and depositaries	MARKT	octobre 2013	Traité sur le fonctionnement de l'Union européenne: Article 114 for a regulation and article 53(1) for a directive	procédure législative ordinaire (COD)			Programme de travail de la Commission / 2013 / CWP2013 The UCITS rules have constituted Europe's regulatory framework for asset managers and investors since 1985. To keep the UCITS framework topical and in line with the evolution of investment markets, some reforms are envisaged. Recent international work on shadow banking has identified certain areas that require closer scrutiny: money market funds and the use of securities lending or repurchase arrangements (repos). The short-termism of the financial markets is often not in line with the financing needs of the "real economy". Fostering a culture of long-term investment in Europe is therefore an important challenge. The intention is to address a number of concerns relating to the efficiency, competitiveness and integration of the market for UCITS funds in order to preserve the UCITS attractiveness for both professional and retail investors.

2013/MARE/080	Pêche et affaires maritimes	<i>Proposal for a Regulation of the European Parliament and of the Council amending Council Regulation (EC) No 302/2009 concerning a multiannual recovery plan for Bluefin tuna in the eastern Atlantic and Mediterranean as amended by Regulation (EU) N° 500/2012 of the European Parliament and of the Council of 13 June 2012.</i>	MARE	février 2013	Traité sur le fonctionnement de l'Union européenne: Article 43(2) TFEU	procédure législative ordinaire (COD)	X		The aim of the Proposal is to transpose into EU law a recommendation that has been adopted in the framework of the ICCAT by way of an amendment to Council Regulation No 302/2009 as already amended by Regulation (EU) N° 500/2012 of the European Parliament and of the Council of 13 June 2012. The scope of this proposal is limited to the transposition of the new dates of the 2013 fishing season and implies that it is necessary in view of ensuring a rapid adoption of the Regulation before the beginning of the 2013 fishing season.
2010/MARE/014	pêche et affaires maritimes	<i>Proposal for a Regulation of the European Parliament and of the Council laying down conservation and enforcement measures applicable in the Regulatory Area of the Northwest Atlantic Fisheries Organisation (NAFO) repealing Council Regulation (EC) No 1386/2007 laying down conservation and enforcement measures applicable in the Regulatory Area of NAFO and Regulation (EC) No 2115/2005 establishing a recovery plan for Greenland halibut in the framework of the Northwest Atlantic Fisheries Organisation.</i>	MARE	mars 2013	Traité sur le fonctionnement de l'Union européenne: 43(2)	procédure législative ordinaire (COD)	X		This proposal will transpose the conservation and enforcement measures adopted in the framework of the Convention on Future Multilateral Cooperation in the Northwest Atlantic Fisheries. The EU is a Contracting Party to this Convention and the measures adopted are binding on its Contracting Parties and therefore, on the EU, which has to transpose them into EU law.
2012/MARE/099	Pêche et affaires maritimes	Proposal for a Regulation of the European Parliament and of the Council repealing Regulation (EC) No 827/2004 prohibiting imports of Atlantic bigeye tuna (<i>Thunnus obesus</i>) from Bolivia and Georgia.	MARE	mars 2013	Traité sur le fonctionnement de l'Union européenne: Art. 207 TFEU	procédure législative ordinaire (COD)			Other simplification The International Commission for the Conservation of Atlantic Tunas (ICCAT) recommended at its 21st Annual Meeting to lift the import prohibition on Atlantic bigeye tuna and its products that were imposed on Bolivia and Georgia. Such prohibition had been enacted in EU law through Regulation (EC) No 827/2004, which should therefore be repealed in order to comply with EU international commitments.
2013/MARE/055	Pêche et affaires maritimes	Proposal for a Regulation of the European Parliament and of the Council amending Council Regulation (EC) No 676/2007 of 11 June 2007 establishing a multiannual plan for fisheries exploiting stocks of plaice and sole in the North Sea.	MARE	1er trimestre 2013	Traité sur le fonctionnement de l'Union européenne: Article 43(2) TFEU	procédure législative ordinaire (COD)	X		The objective is to ensure that the stocks of plaice and sole are harvested at levels which can provide the maximum sustainable yield from 2015 onwards. The effort management as established by the plan does not reflect the situation of stock development. The plaice stock is currently at the highest level on record, and fishing mortality is well below Fmsy level, which allows increasing fishing effort on plaice. The fishing mortality on sole is well above Fmsy, requiring fishing mortality and fishing effort reduction. This leads to certain degree of incompatibility for the management of the stocks. This amendment aims to prevent any future conflicts arising between the management needs of the sole and plaice fisheries when applying the fishing effort regime of the plan.

2012/MARKT/065	Marché intérieur et services	Proposal for a Council Decision on the signing, on behalf of the European Union, of the WIPO Beijing Treaty on Audiovisual Performances	MARKT	février 2013	Traité sur le fonctionnement de l'Union européenne: Article 218 (5) TFEU	procédure législative ordinaire (COD)			The proposal is a necessary step according to Article 218(5)TFUE for the Commission to be authorised to sign on behalf of the European Union, the WIPO Treaty on Audiovisual Performances which was adopted in Beijing on 24 July 2012. The Treaty is a mixed agreement. European Union and the majority of EU Member States have only signed the final act of the Diplomatic Conference in Beijing, and some Member States have also signed the treaty itself. The recognition of a legal protection of the rights of audiovisual performers at international level allows to fill in the gap left after the adoption of the 1996 WIPO treaties. A large majority of issues covered by the treaty is already harmonised at EU level, but now European audiovisual performers will benefit from the same level of protection at international level.
2013/MARKT/045	Marché intérieur et services	Proposal for a European Framework for Money Market Funds	MARKT	mars 2013	Traité sur le fonctionnement de l'Union européenne: Art. 114	procédure législative ordinaire (COD)			Recent international work on shadow banking has identified certain areas regarding investment funds that require closer scrutiny. Money market funds were singled out because they offer deposit-like characteristics while not having the same safeguards as banks. The objective is to make the money market funds safer while preserving this important source of funding for the European economy.
2013/MARKT/046	Marché intérieur et services	Legislative proposal to improve the European market for longer term investment funds	MARKT	juin 2013	Traité sur le fonctionnement de l'Union européenne: 114	procédure législative ordinaire (COD)	X		The general goal is increased long term investment in the EU in infrastructure, social projects, long term growth plans of SMEs, etc. Pension funds and insurance companies are key potential investors in longer term projects, but cannot always make such investments themselves, and so depend on investment funds. Yet evidence suggests such funds are not always easy to identify or that they do not always take the right form, undermining their use. Given this, the specific aim is to foster a flourishing market for funds focused on longer term investment, by making such investment funds easier to identify and more cost-effective to run. The proposals form part of the SMA II. They are linked to the green paper on long term investment.

Furthermore, some problems with the implementation (in particular, how to strengthen the link with Member States National Forest Programmes) and some problems of coordination with other policies affecting forests have been identified. The purpose of the initiative is to propose a new strategy which takes into account challenges that have emerged since the adoption of the current strategy, in particular climate change and EU policy on renewable energy, and to address the problems identified.

2013/CLIMA/006	Action pour le Climat	Consultative Communication exploring issues related to the regulation of new light duty vehicles (LDV) CO2 emissions beyond 2020	CLIMA	1er trimestre 2013	Traité sur le fonctionnement de l'Union européenne: 192(1)	X	X	In order to ensure the EU is on a pathway to achieve the 2050 objectives it is necessary to set post-2020 targets for light-duty vehicles. Current legislation only covers period up to 2020. A communication discussing the Regulations beyond 2020 is necessary for the automotive industry to provide it with the necessary information for cost effective planning and investment. This will be particularly important as manufacturers need to introduce different types of powertrain further into the future. In respect of the latter, it is also desirable to consider whether in the future the method of regulation would need adjustment to best ensure a technology neutral approach. The planned communication will discuss these issues.
2013/CLIMA/009	Action pour le Climat	Decision on adjustments to Member States' Annual Emissions Allocations for the period from 2013 to 2020	CLIMA	1er trimestre 2013	Législation secondaire: Article 10 Effort Sharing Decision			Member States annual emissions allocations under Article 3(2) of the ESD must be adjusted with the amount of allowances issued in respect of the extension in scope of the ETS Directive during the third phase and with the amount of allowances issued according to Article 24 ETS and to take in consideration exclusion of small emitters pursuant to Article 27 ETS
2012/CLIMA/009	Action pour le Climat	Council Directive laying down a methodology for the calculation of life cycle greenhouse gas emissions from fuels other than biofuels and energy pursuant to Article 7a Directive 98/70/EC of the European Parliament and of the Council relating to the quality of petrol and diesel fuels.	CLIMA	2ème trimestre 2013				The Fuel Quality Directive (98/70/EC) introduced an obligation on suppliers to reduce by 6% the lifecycle greenhouse gas intensity of fuel and other (electric) energy supplied for use in road vehicles (and in non-road mobile machinery) by 2020. In this context, the Commission submitted a proposal for an implementing measure laying down a methodology for the calculation of lifecycle greenhouse gas emissions from fossil fuels and energy to the Fuel Quality Committee on 4 October 2011. The proposal was discussed on 25 October and 2 December 2011; the Committee vote on the implementing measure on 23 February 2012 resulted in a "no opinion". The proposal should now be submitted to the Council.
2013/CLIMA/010	Action pour le Climat	Commission Regulation amending Regulation (EU) No 1031/2010 in particular to determine the volumes of greenhouse gas emission allowances to be auctioned in 2013-2020	CLIMA	2ème trimestre 2013	Traité sur le fonctionnement de l'Union européenne: 192(1)			The Commission has presented the draft regulation to revise the auction time profile and postpone (backload) the auctioning of 900 million allowances in the third trading period of the EU Emissions Trading System (ETS) starting in 2013 as a first step to address the large and growing surplus of emission allowances in the system. In order to provide maximum legal certainty in relation to such a change, the Commission also considered it useful to clarify the ETS Directive and proposed such a clarifying amendment of the Directive in July 2012. The Commission adopted in November 2013 a report on the state of the European carbon market which sets out a range of possible structural measures that can be taken as a second step.

As crisis, natural or man made ones, are becoming more frequent and intense, the Lisbon treaty EEAS is an original opportunity to bridge lasting gaps between all our European policies that, directly and indirectly, contribute to shape the everyday EU external action. Comprehensive approach is about elaborating crisis management policies through a full cycle approach from prevention to long term recovery policies wherein the EU added value is visible and maximized. Sequencing all instruments available and dividing the labour amongst EU actors/partners to tackle crisis are sine qua non conditions for the EU institutions to develop an efficient foreign strategy.
