Sustainable Innovation at the Service of Sailors

WHY ?

**THE SAILOR'S PROFESSION IS EVOLVING,
REGULATORY CONSTRAINTS ARE INTENSIFYING,
DIGITAL DEVELOPMENT IS GOING VERY FAST...**

**THE SUPPORT NEEDS OF MARITIME PROFESSIONS IN THE AREAS OF DIGITAL TRANSITION
AND RISK PREVENTION ARE VERY SIGNIFICANT.**

**WE HAVE CHOSEN TO SUPPORT SEAFARERS
TO FACE THESE DAILY CHALLENGES.**

VERY CONCRETELY

Develop new digital features which make everyday life easier on the existing application

Tool approved by 100 convinced users

Providing crews with a tablet reconfigured for their use: the on-board digital toolbox

digital tool very suitable for the gateway

Digitize mandatory on-board documents on secure servers

Develop an alert system via notifications on the renewal of mandatory documents

KOGUS

CLOUD IN BRETON

A V2 of our Application has been used for 2 years by 100 users who are convinced of the value of the tool in their daily lives.

New avenues for improving the tool such as the alert system for updates to mandatory documents will save time and optimize the administrative management of fleets.

An aerial photograph of a winding road at sunset. The road is illuminated by warm, golden light from the setting sun, creating a strong contrast with the dark, shadowed areas. The road curves through a landscape that appears to be a mix of fields and trees. In the center of the image, there is a large white circle with a dotted border. Inside this circle, the words "THE TEAM" are written in a dark, serif font.
