

REPORT

North Western Waters Regional Advisory Council Working Group 2 (WG2) West of Ireland and Celtic Sea

**Wednesday 6 July 2011
11:00-13:00
Main Conference Centre –Dublin Castle**

Chairman: Hugo C. Gonzalez Garcia
Rapporteur: Paul Trebilcock

1. Welcome

- Opening remarks from the Chair

The Chairman opened the meeting. Working Group 2 (WG2) members were reminded that elections for Working Group Chairman, Vice-Chair and Rapporteur would take place in the forthcoming Working Group meeting. The Chairman informed members of WG2 that he was considering resigning from the position at the end of this term and proposed Jesús Lourido as successor or candidate for new Chair for a three year period.

- Introductions and Apologies

The full list of participants is available in Annex I. There were no apologies received.

- Adoption of Agenda

The agenda was adopted by consensus.

- Adoption of Report of the Last Meeting

The report of WG2 held on 13 April 2011 was adopted by consensus.

Dublin Castle, 6th July 2011

2. Data Deficiency Issues

Barrie Deas summarized the findings of the data deficiency meeting held on the 1st of April 2011 with ICES in Copenhagen (full report available on the NWW RAC website for information).

It was agreed to follow the same working procedure at all NWWRAC Working Groups and identify data coordinators for each stock of interest in area VII. The data coordinators would be entrusted with dealing with scientists, fellow stakeholders and Member States and carrying out the necessary work for improving data quality.

The following data coordinators were appointed:

Anglerfish VII	Jacques Pichon
Northern Hake	Victor Badiola
Megrim VII	Hugo González
Nephrops VII	Eibhlin O'Sullivan
Haddock VII b-k	Sean O'Donoghue
Cod VII e-k	Celtic Sea Focus Group (Paul Trebilcock and Jacques Pichon)
Skates/Spurdog/Sharks	Paul Trebilcock

Having appointed co-coordinators for the stocks above the following points were viewed as essential:

- Setting a common methodology and quality control of work
- Establishing good lines of communication with scientists
- Agreeing a format of presentation of collected data

The ICES representative informed WG2 that ICES had stock coordinators and that he would pass on these contact details to the NWW RAC secretariat. This would assist establishing good lines of communication with scientists.

It was highlighted that there were several other stocks that fell into this category such as Pollack VII, Saithe VII, Western Ling, Sole & Plaice VII hjk. It was agreed to liaise with other working groups to compile a list of these stocks to avoid duplication of effort. The NWW RAC would coordinate this.

Actions:

- Barrie Deas to draft a letter to ICES informing on the work progress made by the NWWWRAC on data deficiency, and in particular the appointment of data coordinators for individual stocks. A list of the RAC data coordinators and their contact details will be appended to the letter.
- NWWWRAC to draft a letter addressed to the Commission highlighting the problems in relation to data deficient stocks. This letter will be part of the NWWWRAC general response to the EC Communication on Fishing Opportunities for 2012 and beyond.

3. ICES Advice 2011

WG2 considered the ICES advice on Hake, Anglerfish and Megrin in particular. The uncertainty in these assessments was disappointing and although stable and improving trends could be identified in both stock biomass and fishing mortality the likely Commission proposals would be reductions for these stocks.

A Spanish scientific representative highlighted a number of issues both on the constraints in resources available for marine science research thorough Europe as well as the pressures applied by the Commission to ICES to give answers to specific questions, such as the definition of precise and numeric reference points, that did not take account of proper scientific process and rigor.

Although it was noted that this situation was felt to be improving in some Member States through initiatives such as Fisheries Science Partnerships, ICES benchmark workshops and the recent data deficiency initiatives with ICES.

Action:

Hugo González and Alvaro Fernández to draft a letter stressing that there was no justification for a Commission's proposal for a decrease on the TAC for Hake, Anglers and Megrin in 2012.

4. Management and Technical Measures for Skates and Sharks

WG2 heard that there had been no substantive progress on this issue.

As this was an issue that effected all working groups it was agreed that the NWW RAC should set up a specific focus group to work on this subject.

Action:

NWWRAC Secretariat to arrange a technical Focus Group dealing with skates, rays and sharks for the second half of 2011.

5. Report on Work Progress from the Focus Group for a Long Term Management Plan (LTMP) for the Celtic Sea

WG2 heard that this focus group was not going to be held until the following day and therefore there was no further progress to report since the last meeting held in January.

Paul Trebilcock presented a draft letter to the Commission requesting an in year increase in the Cod VII e-k TAC in light of the most recent ICES advice. It was proposed that this should be sent by the NWW RAC as a matter of urgency.

Subject to some minor amendments proposed by WG2 members it was agreed that it should be presented to the NWW RAC Executive Committee for approval and immediate dispatch. The final version of this letter is available on the NWW RAC website for information.

Action:

The NWWRAC will submit in the following days a draft letter to the Commission requesting an in year increase in the Cod VII e-k TAC in light of the most recent ICES advice.

6. Summary of Actions and Recommendations to be put forward to the Executive Committee

Data deficiency:

To draft a letter addressed to ICES reporting on the work progress made by the NWWWRAC, in particular in relation to the appointment of data coordinators for individual stocks. A list of the RAC data coordinators will be appended to the letter.

To draft a letter addressed to the Commission highlighting the problems in relation to data deficient stocks. This letter will be part of the NWWWRAC general response to the EC Communication on Fishing Opportunities for 2012 and beyond.

ICES Advice for Hake, Anglerfish and Megrim: To draft a letter stressing that there was no justification for a Commission's proposal for a decrease on the TAC for these stocks 2012.

Rays, Skates and Sharks: To set up a Focus Group meeting for the second half of 2011.

Celtic Sea cod: To submit with immediate effect a draft letter to the Commission requesting an in year increase in the Cod VII e-k TAC in light of the most recent ICES advice.

The meeting was adjourned at 13:05 h
